

Rainy Day Dismissal

Anytime there is a heavy rain at dismissal, students have a different dismissal pattern. We will continue to call students over the speaker which is sounding in the areas where students are kept by grade level. **DO NOT walk to the car loop to pick up on rainy day. This slows the process down and we can not get cars loaded as quickly.** If you will help us by remaining in your car and have your car pool names with the grade levels indicated we know where to look for your child. This helps the line move at a better pace.

If there is a severe rain students who walk or ride their bike will be held in classrooms until the rain lets up.

Make rainy day plans with your child to avoid confusion.
