

Summer 2017 LOHS Boys Basketball Program Information:

Greetings Players and Parents:

Following are ways your son can be involved with the LOHS basketball program in the coming months. These opportunities are great for developing skills, working with our coaching staff, and staying in basketball shape. Please know that these opportunities are optional but recommended for students who intend to try out this winter (November 13th). Summer programs are free thanks to the time volunteered by our coaching staff and support of LO Basketball Booster Club.

Parents/Players will need to review June Summer League Schedule and Tournament Options below and complete the Google Form that will arrive in separate email (LOHS Summer Basketball Availability). Please complete no later than May 19 so we can anticipate the number of teams, register for camps and book potential transportation. A small fee will be needed to cover food/lodging for tournaments/camps. LOBC will cover registration fees.

FAQ's:

Is this mandatory? Summer League is not mandatory.

How much does this cost? Summer League is sponsored by the LOBC. No fees for players. For Camps a nominal fee will be charged for lodging/meals. Team fees covered by LOBC.

How many players will be on the summer league teams? In the past we've had anywhere from 8-14 players on the bench for games. We are working on having the range of players for each game at 8-10.

Will you make cuts for game and tournament play? There are no cuts in Summer League. We will make every effort to place players on appropriate teams for their offseason development.

Who should I contact with questions? Specific questions can be directed to Coach Cho at marshallcho@gmail.com. In general, as the players transition to high school athletics, we encourage them to take the responsibility to convey information to parents.

Who will be coaching? LOHS coaching staff plus some additions from LOYTBA coaching staff. http://lolakers.com/boys_basketball/coaches

What if I play another sport, can I still participate? Yes. Student athletes should coordinate with coaches.

How does summer play effect fall tryouts? We will have 4 teams next season, Frosh, JV, JV2, Varsity, an average of 45-50 kids total in the program. Basketball is a highly competitive program with limited numbers of players. Summer ball is an opportunity for players to improve and work with coaches, it isn't a tryout.
