

Teacher Computer Replenishment Program

Wish List 2012-13

Wish List

Educational Technology is looking at replacing computers for teachers. This presentation is to provide information about two Lenovo items ET may consider purchasing. They have asked us for a "Wish List".

Wish List

I do not know if you will have a choice but I have been asked to get your input. Please review the information below and consider the following when making your selection.

1. You will have one BPS teacher computing device in your classroom. The current teacher computer in your classroom will be removed for student use.
2. The first choice is an All-in-One Lenovo M72z desktop and is very similar to the computers in the front office. It is a light-weight device using minimal space on your desk.
3. The second choice is a Lenovo E530 wireless laptop. This device will be connected to the AV equipment in your classroom. If you choose to take this unit home you must learn how to disconnect and reconnect the cables on the AV cart in your classroom. Should these cables become damaged from disconnecting and reconnecting to the AV cabinet your department will be responsible for replacing the cables.

ThinkCenter All-in-One M72z

GovC Part#	Manufacturer Part #	Description
14588079	<u>3548B4U</u>	ThinkCenter M72z All in One 20" Desktop
